FUNDRAISING NEED

Proceeds will support the equipment needs of Woodstock Hospital. Technology allows us to provide prompt diagnoses, quicker recovery and overall better patient care to Oxford County residents. But it is constantly evolving and improving which makes the need to update our existing equipment and purchase new technology ever present.

The healthcare challenges that we face today are not those we faced a century or even a decade ago. As our population lives longer we are facing more complex healthcare issues that demand new and improved technology. By continuing to invest in technology we are able to meet the current needs of our community, while also preparing for anticipated ones.

THE COURSE

Nestled in the rolling hills of Oxford County, just north of Woodstock, Craigowan Golf Club presents an exceptional golf experience to all levels of players. The mature, tree-lined fairways and vast, contoured greens are trademarks of this course that has a reputation for understated excellence.

The 18 hole parkland style golf course was designed by the Canadian Hall of Famer, Robbie Robinson, in 1959 with emphasis on the natural lay of the land, to offer up numerous intriguing holes.

Craigowan is a par 71, 18-hole golf course played over 6,728 yards that presents a varied and inspiring golf experience. Quite simply the best golf course in Oxford County, the Craigowan golf course is spread over 200 acres of land. With 50 bunkers, a natural creek that bisects four holes and two ponds that play into holes 7 and 14, this course demands golfers bring all their shots.
